### **DETAILED ACTION**

#### **REJECTIONS WITHDRAWN**

1. There are no rejections withdrawn.

#### **REJECTIONS REPEATED**

2. All of the 103 rejections set forth in the non-final rejection of 8/10/07, pages 2-5, paragraphs 4-7 are repeated for the reasons of record. Hegler discloses the inner fluoropolymer layer having a substantially smooth inner surface (column 4, lines 47-61) and the jacket having undulations (Fig. 1). Mitchell discloses the jacket having a substantially smooth outer surface while adhering the jacket and inner layer together and corrugating said jacket after the forming step (Fig. 1).

#### **NEW REJECTIONS**

3. There are no new rejections.

#### ***Allowable Subject Matter***

4. Claim 18 is allowed since the prior art fails to teach or suggest the step of etching the corrugations.

#### **ANSWERS TO APPLICANT'S ARGUMENTS**

5. Applicant's arguments of 11/13/07 have been carefully considered but deemed unpersuasive. Applicant has argued that the combination would not work because at

the exit the materials of Mitchell are in a molten state and Hegler's system would cause the material to stick and build up on the apparatus. However, the test for obviousness is not whether the features of a secondary reference may be bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all of the references. Rather, the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981).

### **Conclusion**

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
